

 SAFEFILE

ON-LINE BACKUP SOLUTIONS

Could you imagine losing the core of your company in the twinkling of an eye?
All your IT data gone!

Did you know that 80% of unprotected companies go bankrupt after a computer crash?
In case of partial loss, 60% of them disappear within the next 5 years.
Are you sure you are completely protected?

COMPLETE, SECURED AND AUTOMATIC BACKUP

Managing your data protection is no longer a headache! This software provided by DFi has been especially created for servers, laptops and workstations and allows you to plan automatic backups and remote recovery.

Compatible with Windows, Linux and Mac, you can now be protected against any type of IT damages, without interfering with your daily work.

Your advantages

- Automatic and intuitive backup •
- Optimum security •
- Quick recovery •
- Windows, Mac, Linux compatible •

EASY TO INSTALL - NO EXTRA INVESTMENT

Once the software has been downloaded and installed, SafeFile is completely automated. Through a friendly interface, you can:

- Plan backup frequency
- Determine the bandwidth level you wish to allocate to them
- Create new users or modify the files to be saved for a use in accordance with your evolution.

MAXIMUM SECURITY

State-of-art security technology. SafeFile encrypts your data with your own key. You are the only one to know its password. You can thus select the authorized persons who can have access to your data. Compressed to gain storage space, your encrypted files are transferred to our Data centre in Switzerland, via secured Internet access (SSL Connection).

DON'T BE SCARED TO BE TIED UP ANYMORE

SafeFile authentication secured system enables you to restore your data from any computer. It ensures you a quick data recovery in case of damages. Whether it's a theft, a mechanical malfunction, a man-made mistake, a virus or a fire... it could happen to you at any time!

Protect yourself; make sure that all your company data are available at any time, no matter where you are. You won't be tied up anymore and you will gain credibility towards your partners and customers.
